

# STEM EXPERIMENTS

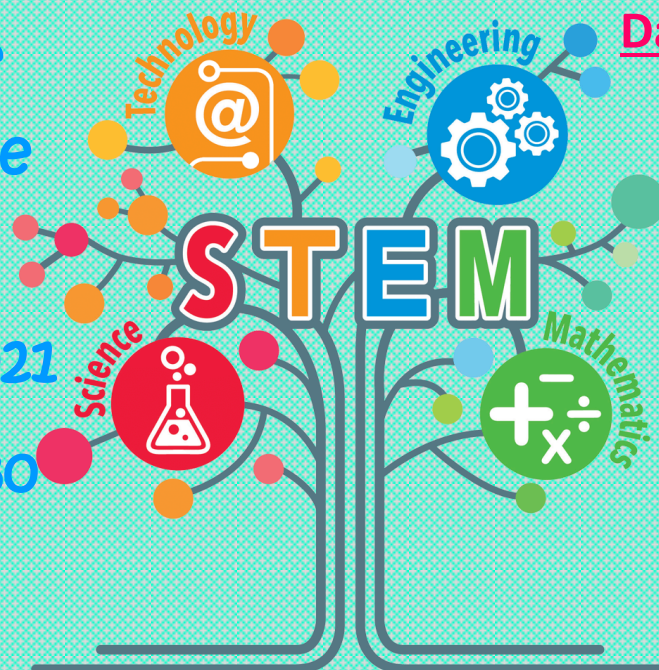

Science—Technology—Engineering—Mathematics. Experiments, Experiments and more Experiments. This week is jam packed with all sorts of experiments, challenges and creating. This week we will be exploring science experiments including baking soda and vinegar, potato lamp experiment and even slim making. We will also be doing some crazy fun challenges like tin foil boat making, paper plate hover boards, magnet challenges and so many more are instore for this week. We will be creating bead crafts, foosball games, paper planes, making new inventions and even making ice cream. This is a week full of learning, exploring, experimenting, creating, and having the best week of their lives. We can't wait to have you join us in this wild experimental week.
